

How to use usmleengo

The complete guide

6,600+ USMLE quizzes, Medical English flashcards, live games, classes and a rating — all inside Telegram.

@usmleengo_bot
TELEGRAM MINI APP

Start in thirty seconds

usmleengo is a Telegram Mini App: there is nothing to install, and your progress is saved in your Telegram account.

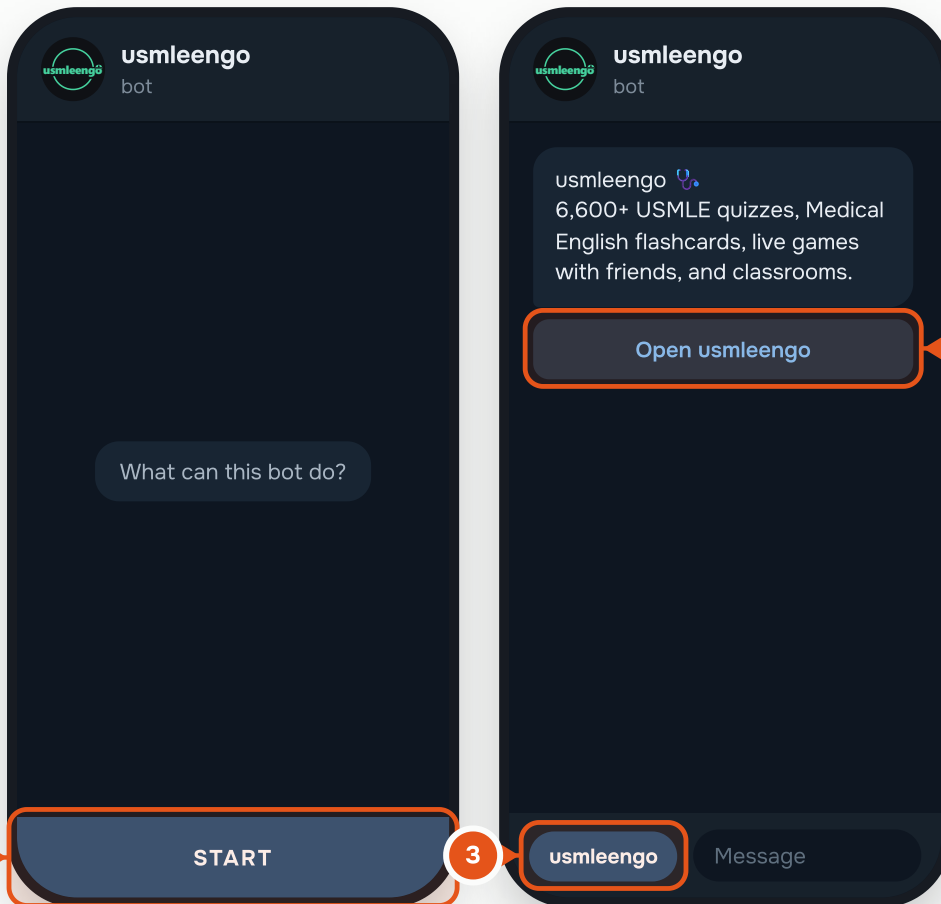

Illustration of the Telegram chat

- 1 **Find the bot**
In Telegram, search for @usmleengo_bot and open the chat.
- 2 **Tap Start**
The bot says hello and puts an Open usmleengo button under its message.
- 3 **Open the app**
Tap Open usmleengo, or the usmleengo menu button beside the message box. The app opens inside Telegram.
- 4 **Choose your language**
Me → Language switches the whole app, and every question, between English and Uzbek.

GOOD TO KNOW

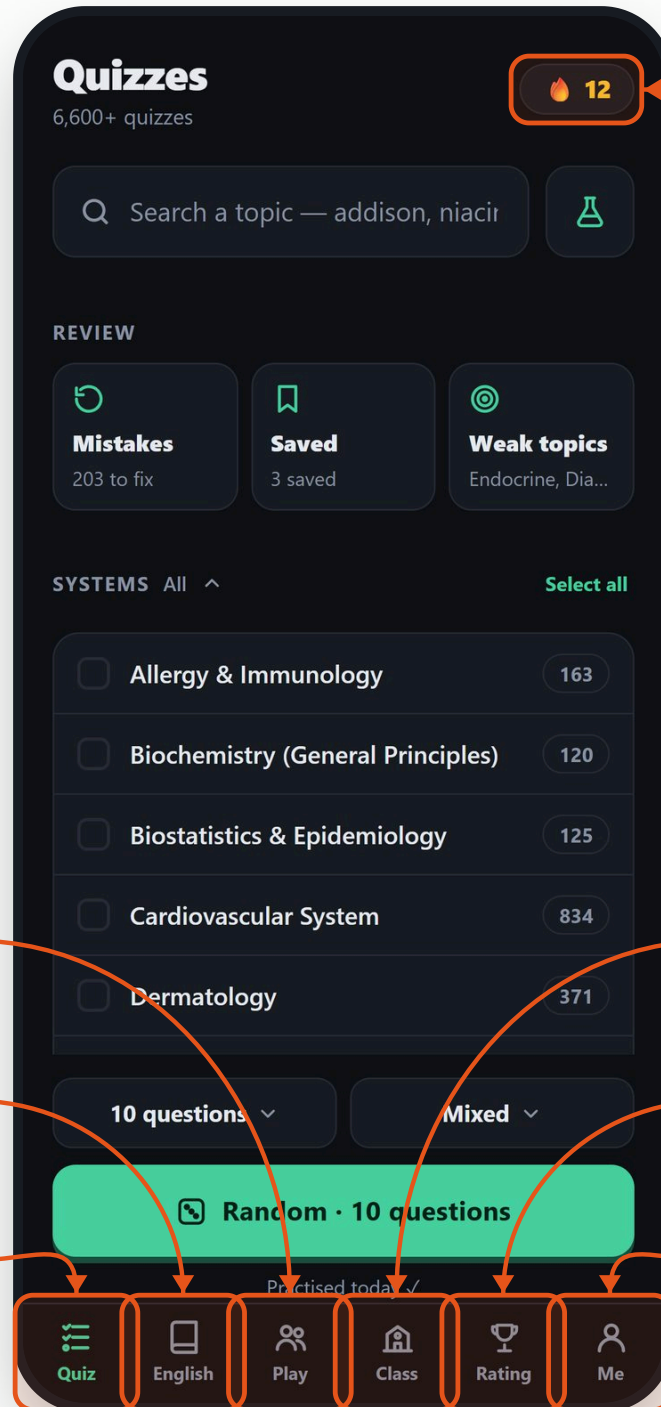

Works on your phone and in Telegram Desktop.

Your progress follows your Telegram account from one device to another.

Two Telegram accounts on one phone keep separate progress.

Six tabs, one app

The bar at the bottom is always there. Tap a tab to switch; what you were doing is kept.

1 Day streak
Grows by one for every day you answer at least one question.

2 Play
Live games: race friends on the same questions.

4 English
Medical English: 8,000 clinical terms as flashcards.

6 Quiz
6,600+ USMLE questions. Study by system or subject.

3 Class
Join your teacher's class, or run one of your own.

5 Rating
Everyone who plays, ranked by points.

7 Me
Your points, numbers, language and help.

TIP The Quiz tab is where you start: tap Random and you are answering in two seconds.

The Quiz tab

Everything you need to choose what to study is on one screen. With nothing chosen, Random mixes the whole bank.

1 Day streak
Study a little every day to keep it.

2 Search
Type any topic — addison, niacin, murmur — and quiz on it. Works in English and Uzbek.

3 NBME lab values
The reference table, one tap away.

4 Review
Mistakes: questions you last got wrong. Saved: the ones you bookmarked. Weak topics: where you are weakest.

5 Systems and subjects
Tick what you want. Nothing ticked means everything.

6 How many
Questions in one round.

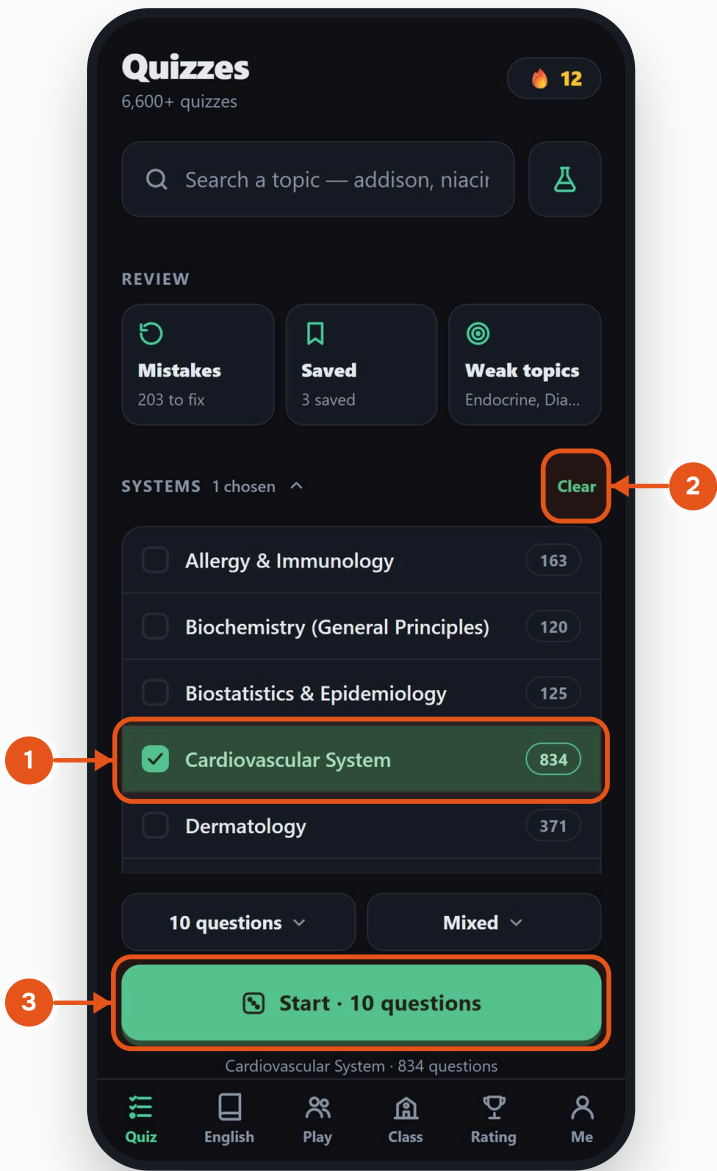

7 What kind
Two-option, typed, or a mix.

8 Random / Start
Begins the round.

Narrow it down

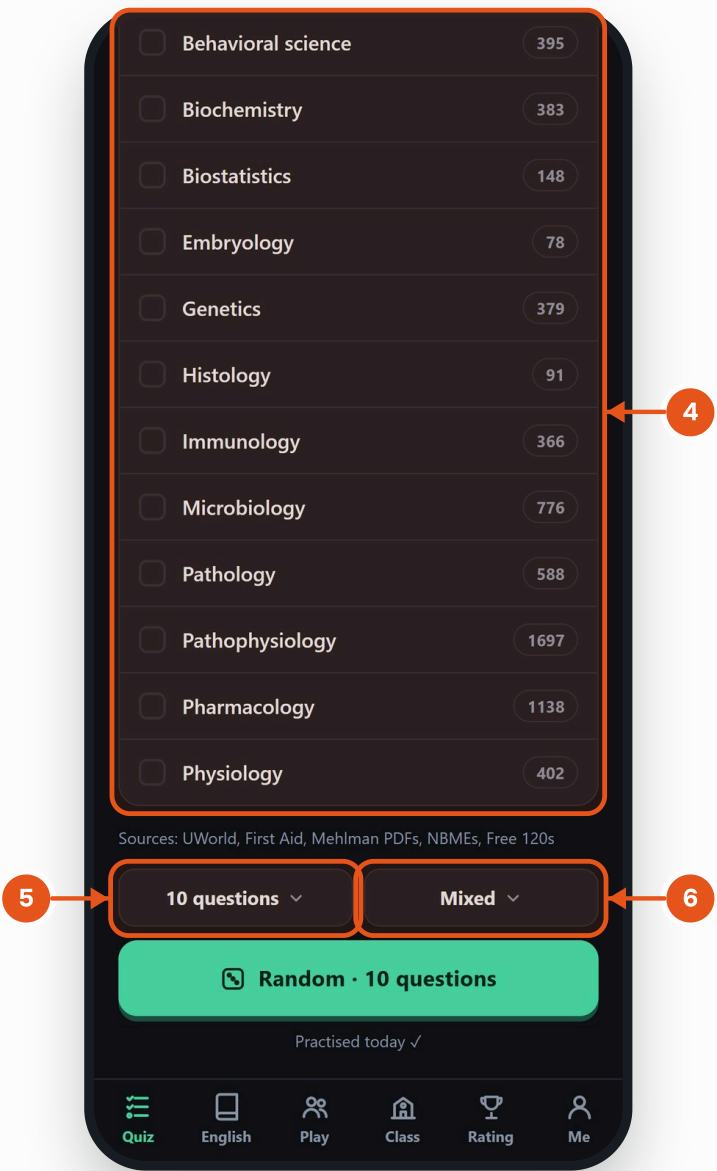

Two lists organise the whole bank: 26 systems (the organ a question is about) and 13 subjects (the discipline). They work together.

TICK A SYSTEM

- 1 Tick**
Tap a row to choose it, tap again to untick. The number is how many questions it holds.
- 2 Clear**
Shows Clear when something is ticked, Select all when nothing is.
- 3 Start**
Says Start once you chose something, and how many questions it covers.

THEN A SUBJECT

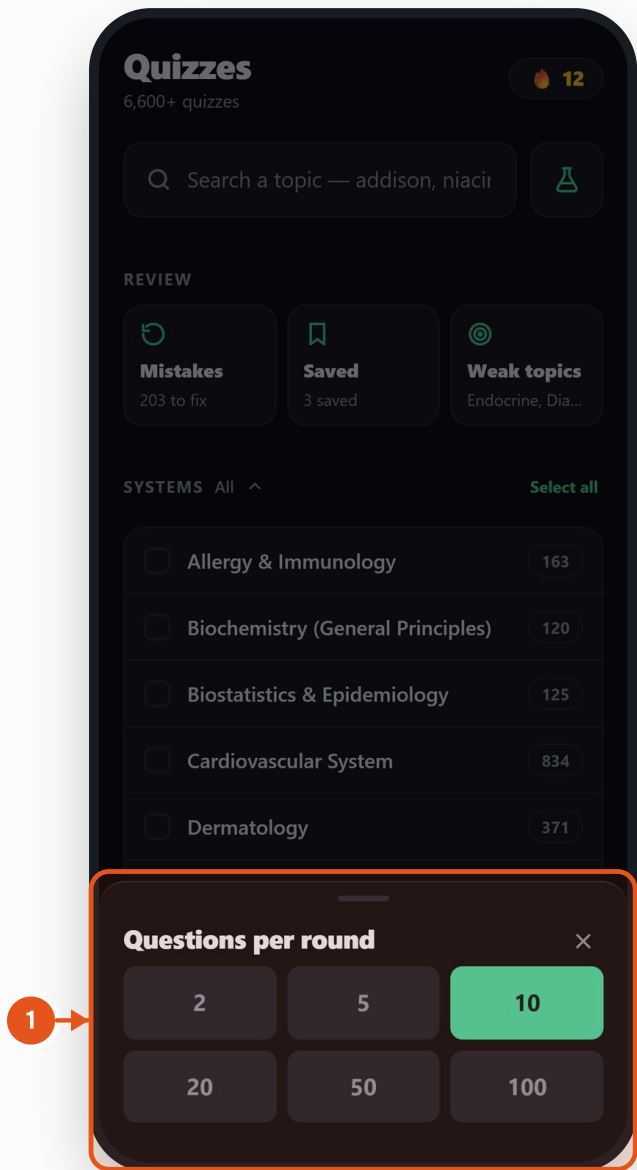

- 4 Subjects**
The second list. Cardiovascular + Pharmacology gives heart drugs and nothing else.
- 5 Round size**
How many questions in one round.
- 6 Question kind**
What to be asked: taps, typing, or both.

TIP Not sure where to start? Tap Weak topics: it lists the systems where your answers are weakest.

How many, and what kind

Two small buttons beside Start open these choices. The app remembers them for next time.

QUESTIONS PER ROUND

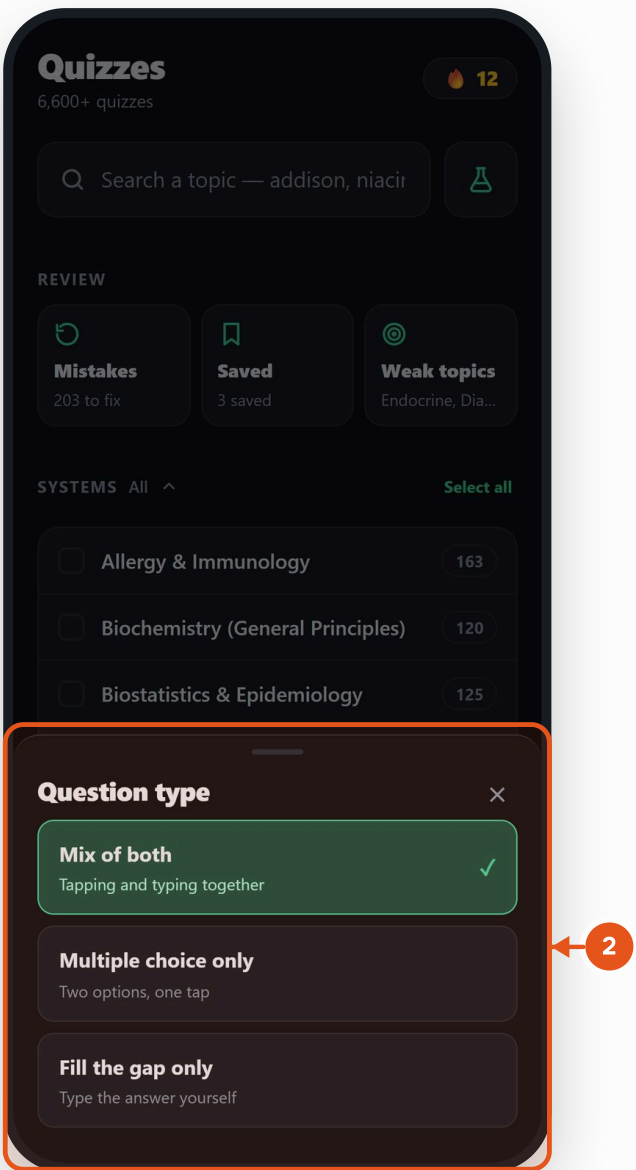

- 1

2 to 100

Pick a size: 2, 5, 10, 20, 50 or 100. Short rounds fit a queue; long ones fit an evening.

QUESTION TYPE

- 2

Three kinds

Mix of both; Multiple choice only (two options, one tap); Fill the gap only (you type the answer).

TIP

Typed answers are harder, so a right one earns 1.5 times the points of a tapped one.

Answering a question

A two-option question: read it, tap an answer. You are graded the moment you tap – there is no separate Submit.

1 Leave

Stops the round. The answers you gave are kept.

2 Lab values

Opens the NBME table over the question.

3 Save

Bookmarks the question; find it later under Saved.

4 Progress

Fills as you work through the round.

5 The question

Some questions hide their topic label until you answer, so it never gives the answer away.

6 Two options

Tap the one you think is right. The faster you are right, the more points you earn.

TIP

The clock runs from the moment the question appears until you tap. Reading the explanation afterwards is not timed.

Right or wrong, you learn

After every answer the app shows what was right and why. Take a moment: the explanation is the point.

A RIGHT ANSWER

1

ATOPIC DERMATITIS

Atopic dermatitis is part of the atopic march toward

Asthma and allergic rhinitis

Psoriasis and arthritis

2

✓ **Correct**

Eczema, then food allergy, then asthma.

Something wrong with this question? Tell me

3

Continue

1

Topic

What the question was about.

2

Correct

A one-line reason it is right.

3

Continue

Next question.

A WRONG ANSWER

5

RETROPERITONEAL

4

INTRAPERITONEAL

6

✗ **Not quite**

Answer: **Retroperitoneal** — Which is why pancreatic pain bores through to the back and why inflammation spreads along retroperitoneal planes.

Something wrong with this question? Tell me

Continue

4

Your pick

Turns red.

5

The answer

Turns green.

6

Something wrong?

Tap it to message the developer about this question, with its id filled in.

TIP A wrong answer goes to Mistakes and waits there until you answer it right.

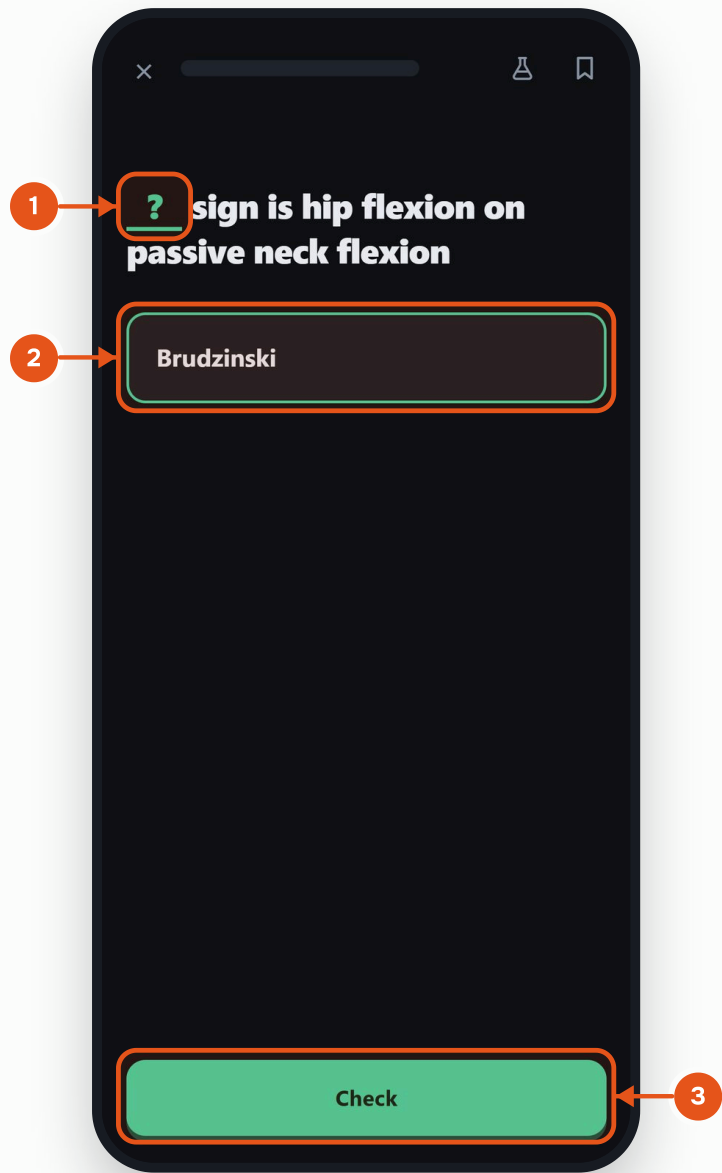

usmleengo · guide · @usmleengo_bot

8

Typed and picture questions

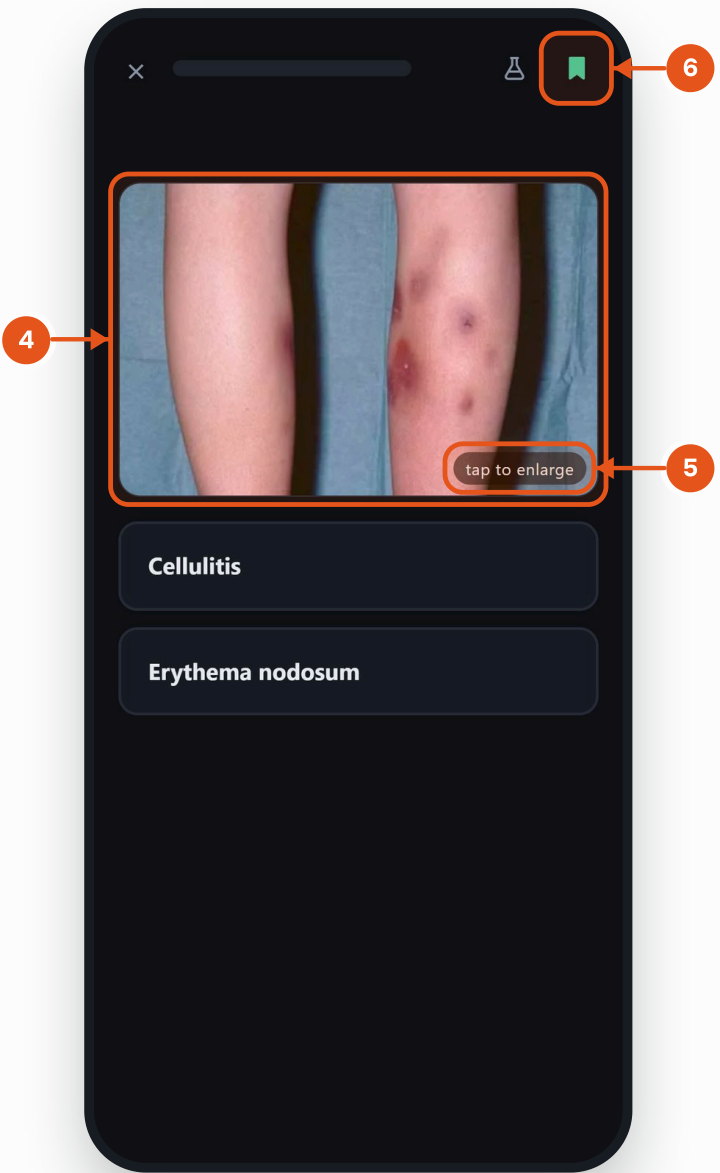

Two more kinds of question: fill the gap yourself, and identify what is in a picture.

FILL THE GAP

- 1 The gap**
The missing word or term.
- 2 Type it**
Small typos are forgiven in longer words; short answers like B3 must match exactly.
- 3 Check**
Grades your answer. A wrong typed answer costs no points.

NAME THE PICTURE

- 4 The picture**
Skin, smears, slides and more: 377 picture questions.
- 5 Zoom**
Tap the picture to enlarge it.
- 6 Saved**
Filled in: this one is bookmarked.

At the end of a round you see how it went, what it earned, and what to look at again.

Weak topics

See where you are weakest and go straight there. Mistakes and Saved sit beside it on the Quiz tab.

Back

1

< Back

Weak topics

How many questions you have seen, and how many of your answers were right, weakest first. Tap one to practise it.

Systems

Subjects

Endocrine, Diabetes & Metabolism

53%

25 of 529 seen · 51 answered

Renal, Urinary Systems & Electrolytes

55%

45 of 552 seen · 91 answered

Dermatology

60%

48 of 371 seen · 80 answered

Ophthalmology

61%

26 of 71 seen · 54 answered

Social Sciences (Ethics/Legal/Professional)

62%

17 of 82 seen · 37 answered

Nervous System

64%

36 of 686 seen · 66 answered

Biochemistry (General Principles)

65%

46 of 120 seen · 91 answered

2

Systems or subjects

Look at your progress by organ system, or by discipline.

3

One row

The name, the % you got right, and how many you have seen and answered. Tap it to practise it.

4

Weakest first

Red is under 60%, amber 60–79%, green 80% or more. A row is judged after five answers.

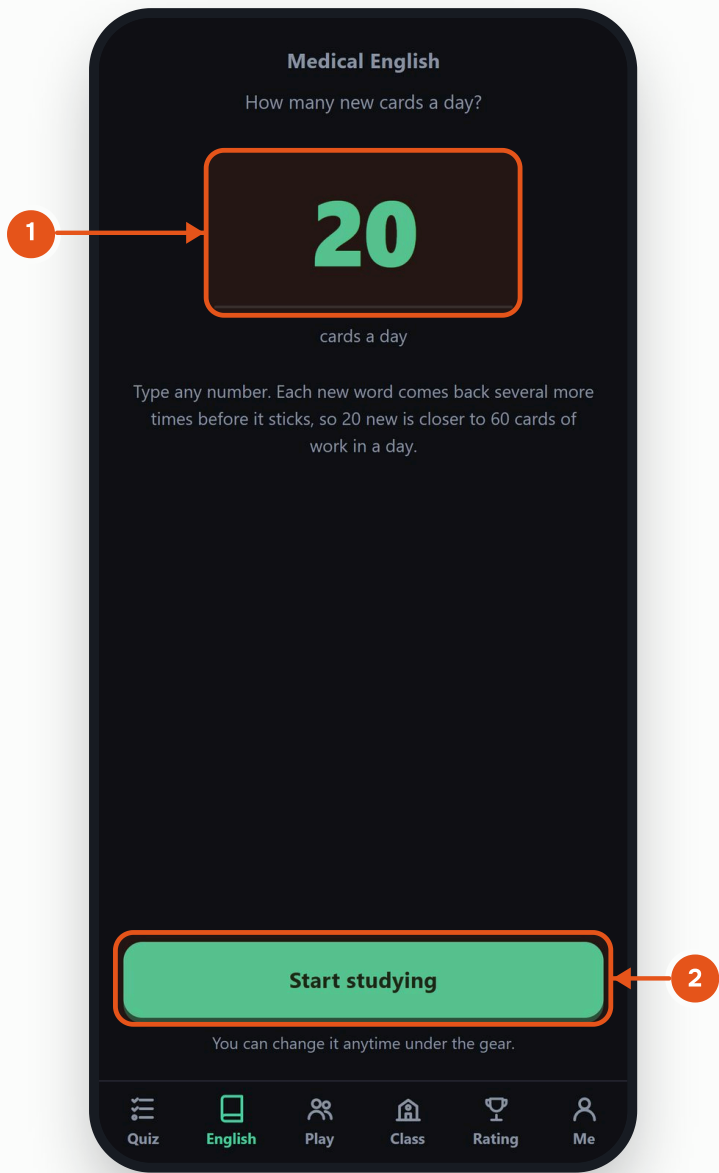

TIP

A topic with few answers is not judged yet: answer five and it gets a colour.

Medical English

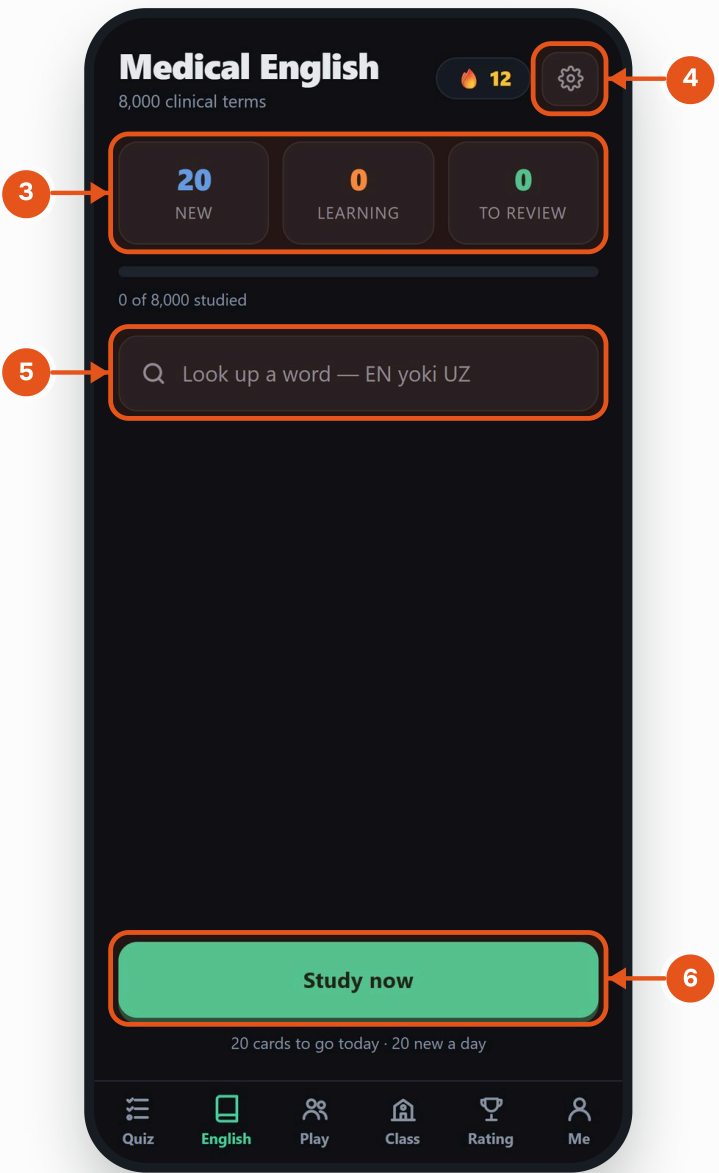

8,000 clinical terms as flashcards, with the Uzbek meaning. The app schedules each card for you.

THE FIRST TIME

- 1 New cards a day**
 Type any number. Each new word comes back several times, so 20 new is about 60 cards of work.
- 2 Start studying**
 You can change the number later under the gear.

YOUR DECK

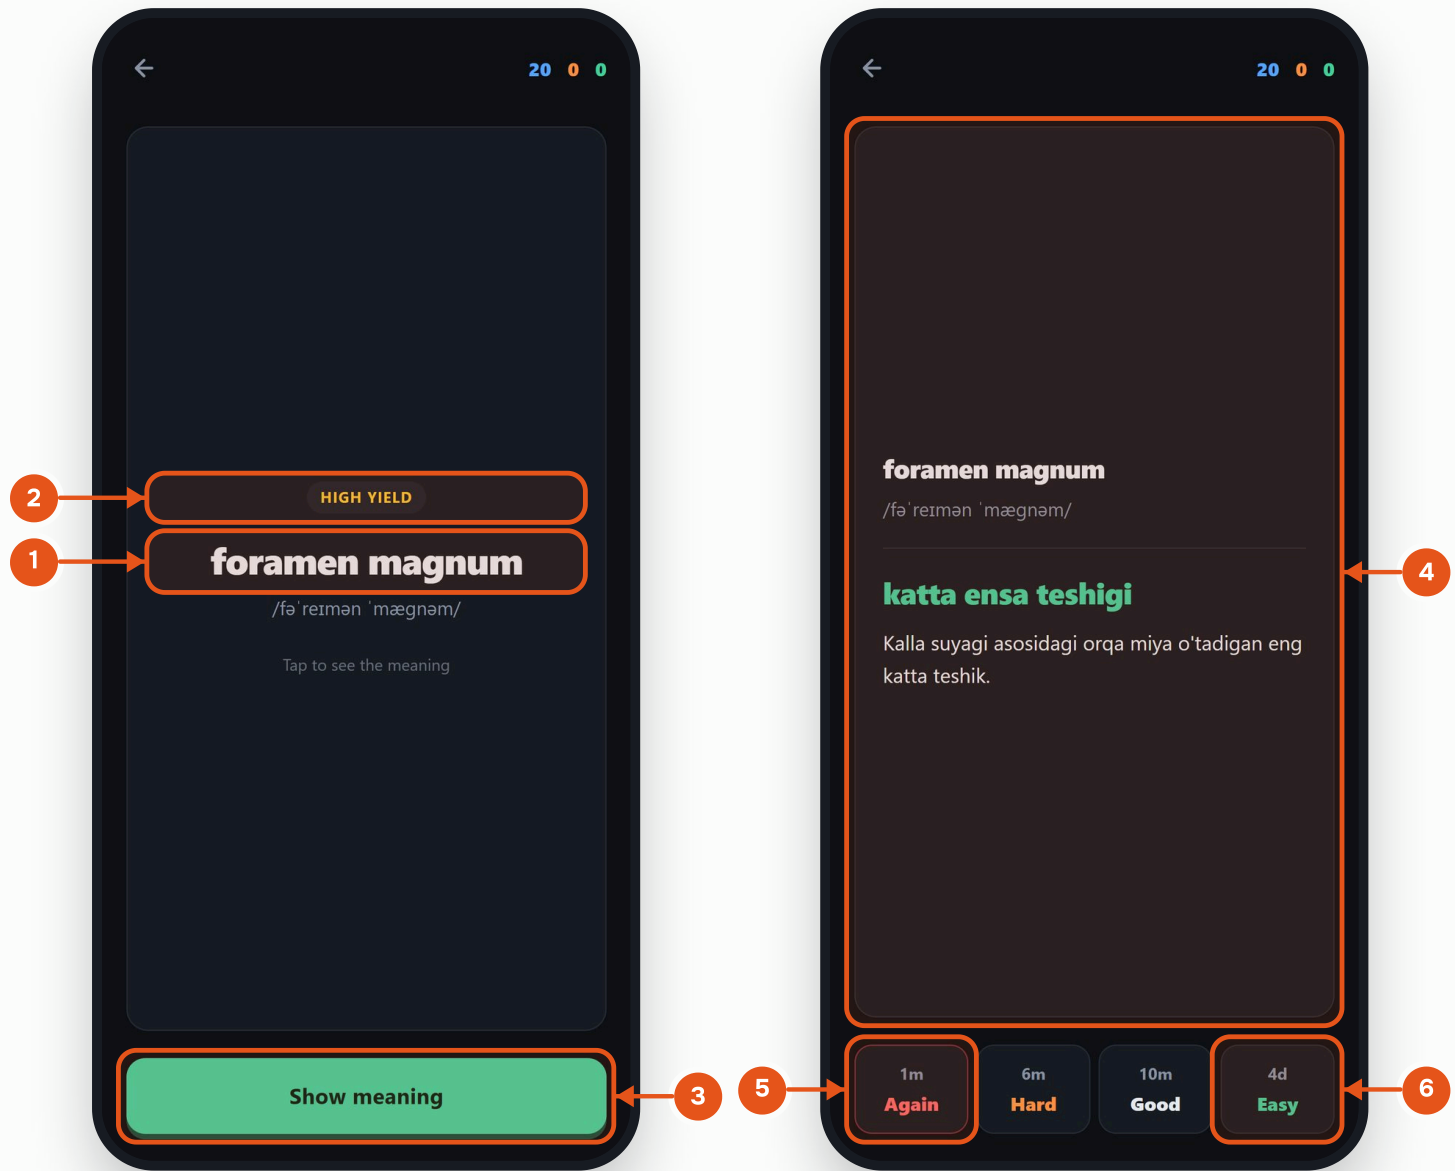

- 3 New · Learning · To review**
 Today's cards, by kind.
- 4 Settings**
 New cards a day, high-yield terms only.
- 5 Look up a word**
 Search the glossary in English or Uzbek.
- 6 Study now**
 Starts today's cards.

A flashcard, front and back

Look at the term, try to recall the meaning, then check. Be honest with the buttons: they decide when you see the card again.

THE FRONT

THE BACK

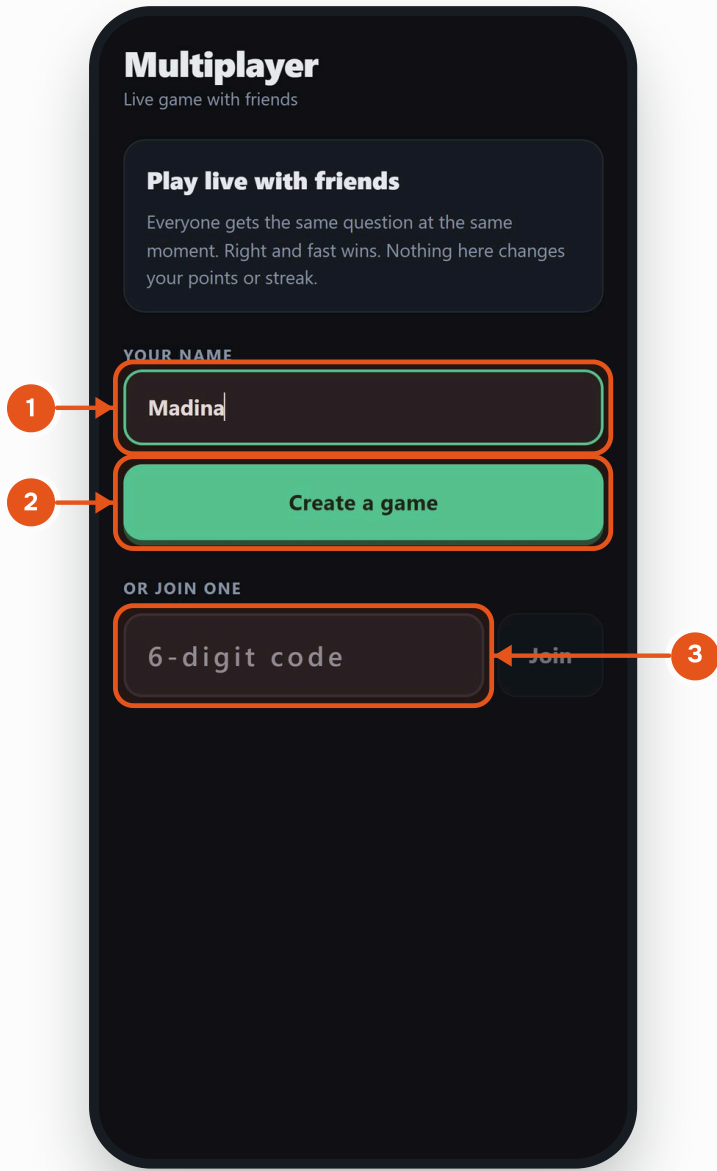

- 1 Term and sound**
The English term, with its pronunciation.
- 2 High yield**
Marks the terms that matter most for the exam.
- 3 Show meaning**
Tap once you have tried to recall it.
- 4 The meaning**
The Uzbek meaning and a short explanation.
- 5 Again**
Missed it: back in a minute.
- 6 Easy**
Knew it at once: days away.

TIP The time above each button is when the card returns. The more often you know it, the further away it goes.

Play live with friends

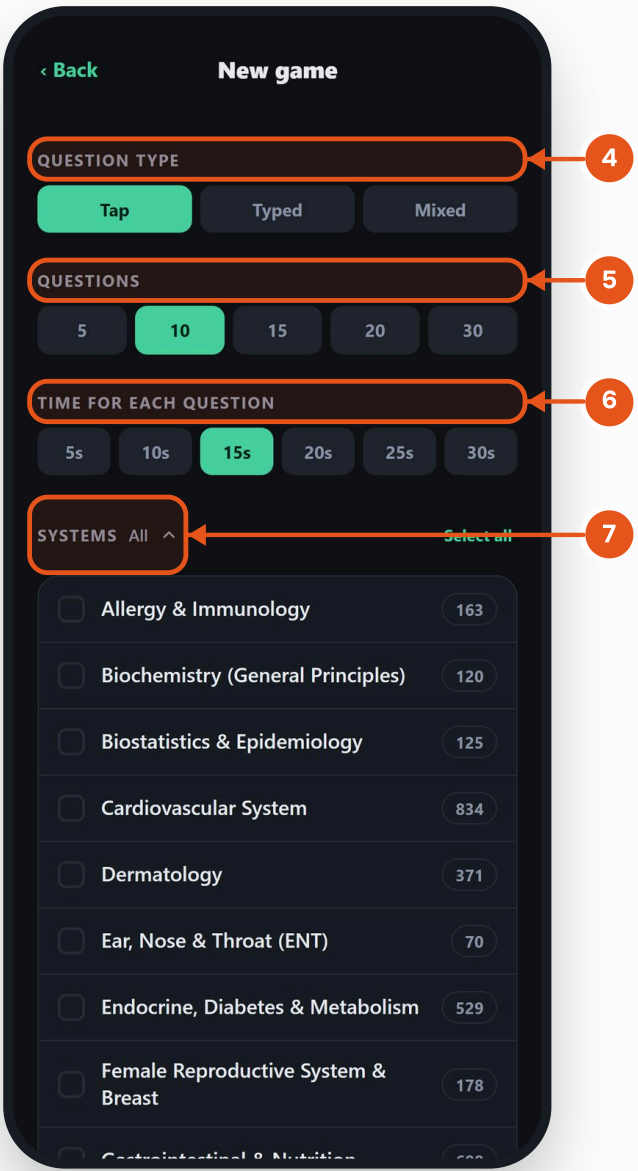

Everyone gets the same question at the same moment. Right and fast wins. Nothing here changes your points or streak.

CREATE OR JOIN

- 1 Your name**
How friends will see you. In Telegram it comes from your profile.
- 2 Create a game**
You become the host.
- 3 Join with a code**
Type the six digits a friend sent you.

SET THE GAME UP

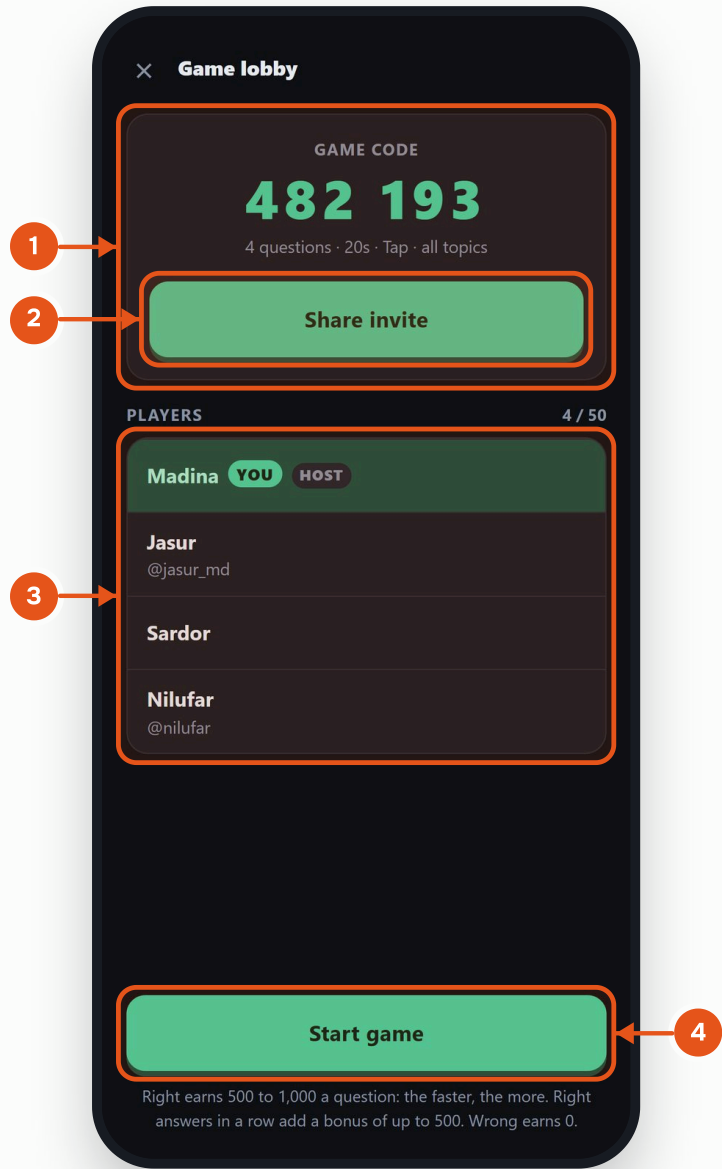

- 4 Question type**
Tap, Typed or Mixed.
- 5 Questions**
5 to 30 in a game.
- 6 Time each**
5 to 30 seconds.
- 7 Categories**
Pick systems and subjects, or leave all.

TIP Questions are picked at random, and friends who read different languages can play the same game.

The lobby and the question

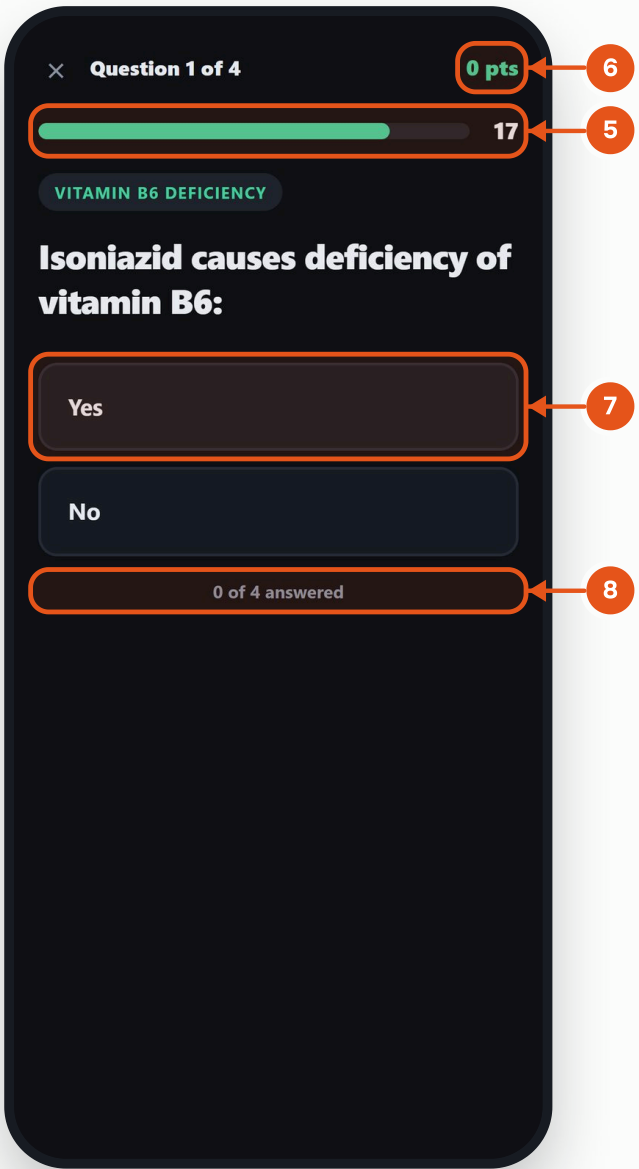

Share the code, wait for friends, start. Each question has a countdown; the sooner you are right, the more you score.

THE LOBBY

- 1 **Game code**
Six digits. Friends type it on the Play tab.
- 2 **Share invite**
Sends a Telegram link that opens the game.
- 3 **Players**
Up to 50. The host is marked.
- 4 **Start game**
Only the host, and with two or more players.

A QUESTION

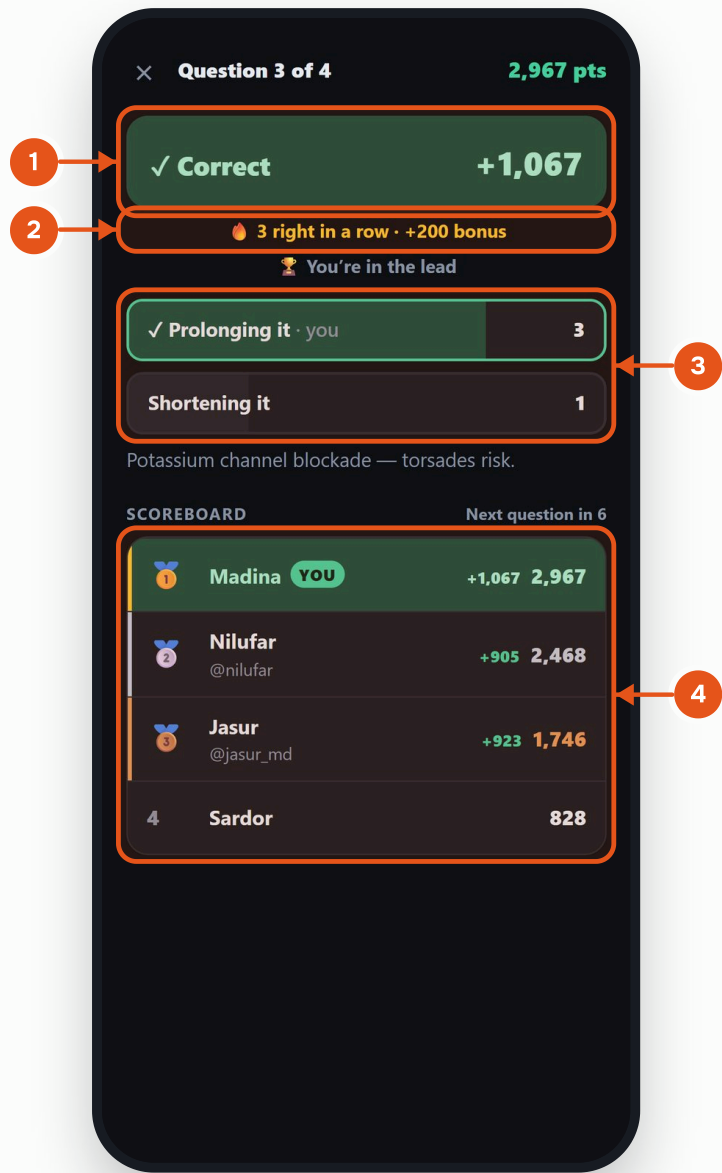

- 5 **Countdown**
The bar and the seconds left.
- 6 **Your points**
This game only.
- 7 **Tap once**
You cannot change it. Faster is worth more.
- 8 **Who answered**
How many players are done.

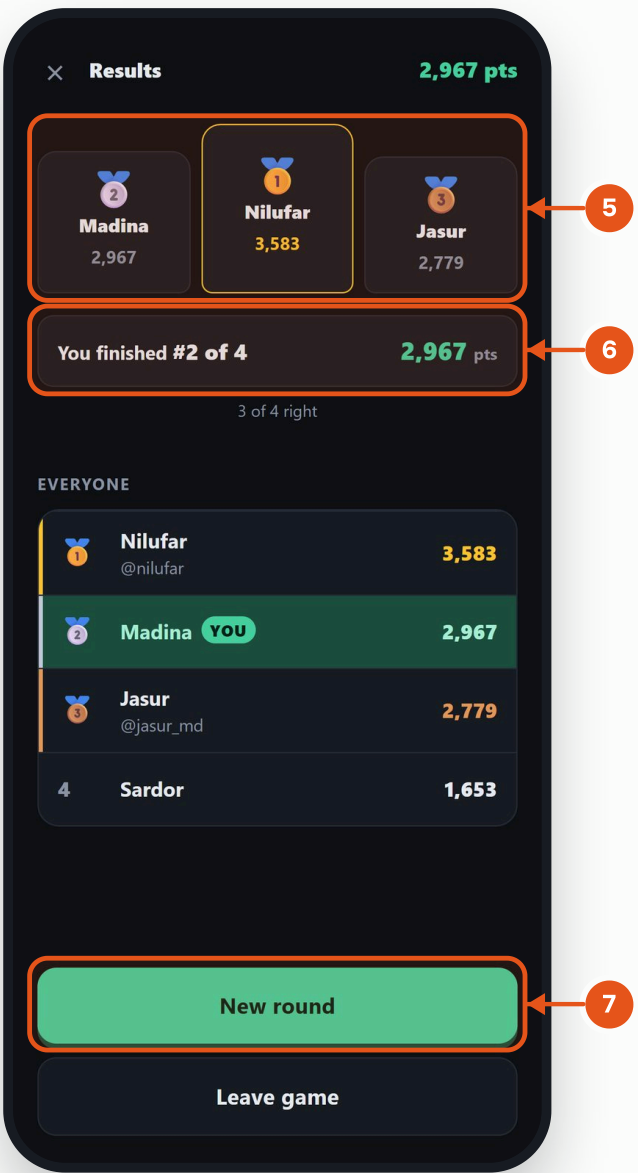

After each question, and the end

You see what you earned, how everyone answered, and the scoreboard. At the end, the podium.

THE REVEAL

THE END

- 1 **What you earned**
500 to 1,000 for a right answer, more the faster you were.
- 2 **Streak bonus**
Right answers in a row add up to 500.
- 3 **How everyone answered**
The right one is highlighted.
- 4 **Scoreboard**
Points this question, and the total.

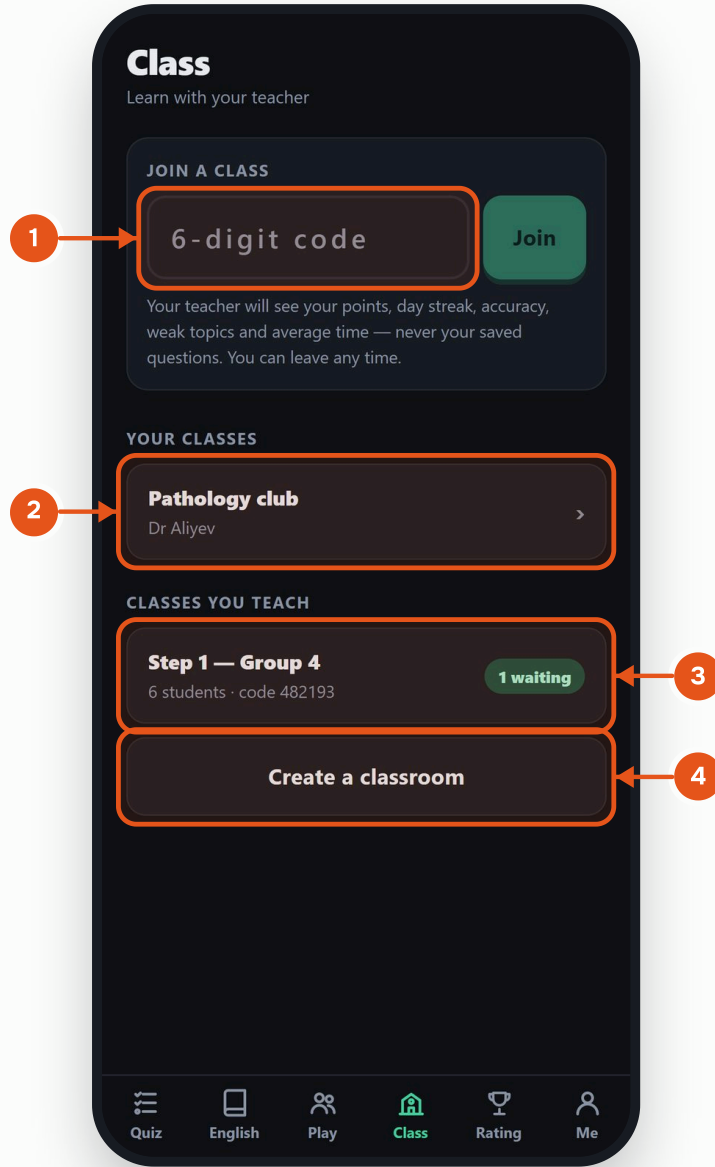

- 5 **Podium**
The top three.
- 6 **Your place**
Place, points and how many you got right.
- 7 **New round**
The host can play again with new questions.

TIP Game points are Kahoot-style and count only inside the game: they never touch your rating.

Join your teacher's class

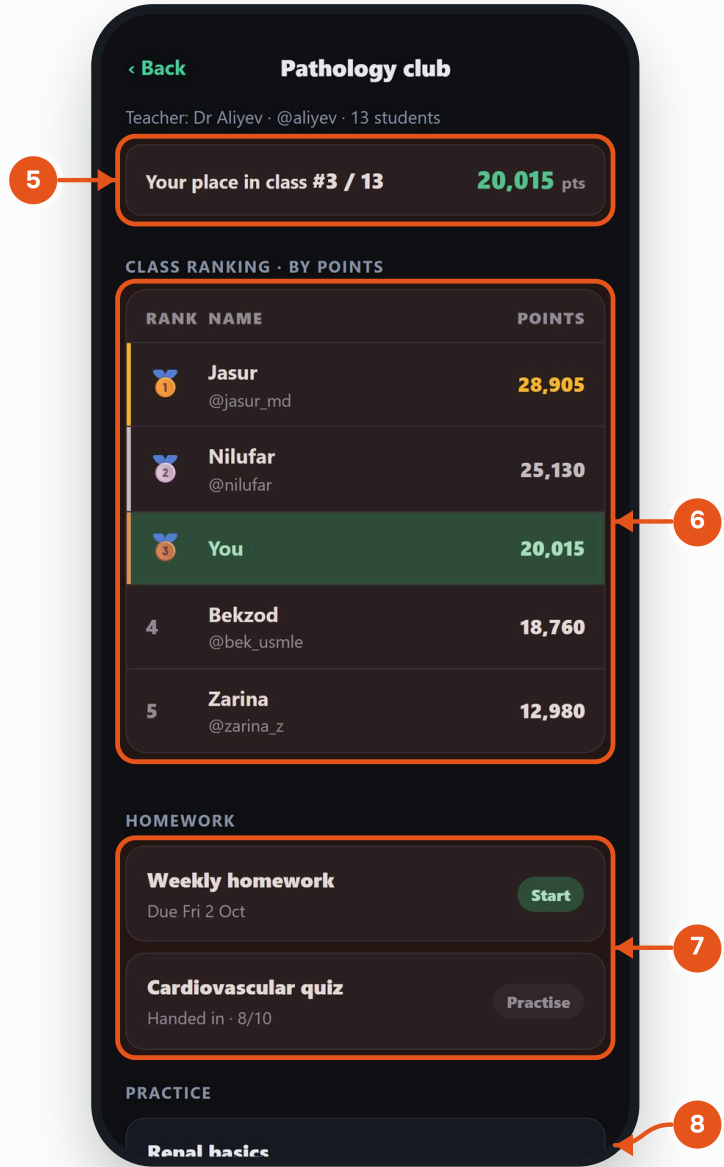

Your teacher gives you a six-digit code. They approve you, and you see the class ranking and your homework.

THE CLASS TAB

- 1 **Enter the code**
Six digits from your teacher.
- 2 **Your classes**
The classes you are in.
- 3 **Classes you teach**
If you are a teacher, they appear here.
- 4 **Create a classroom**
Start your own.

INSIDE A CLASS

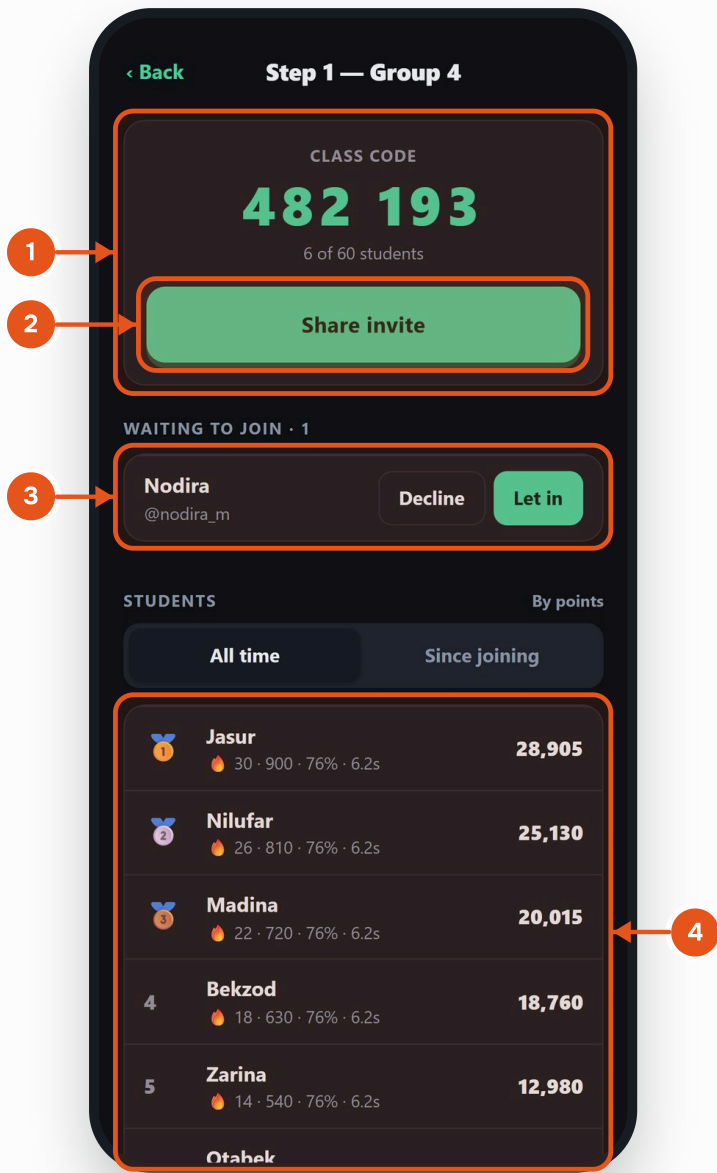

- 5 **Your place**
Among the class, by points.
- 6 **Class ranking**
Points earned in usmleengo.
- 7 **Homework**
Start it before the due date. Class questions never change your rating.
- 8 **Leave**
Two taps, so it is never by accident.

TIP Your teacher sees your points, streak, accuracy, weak topics and average time — never your saved questions.

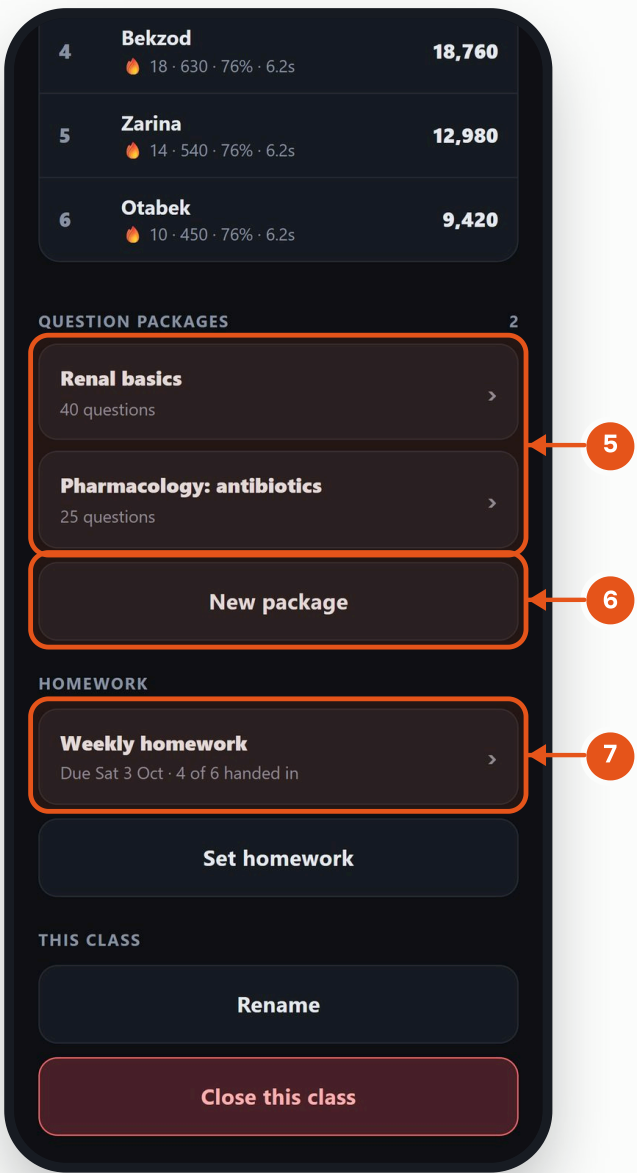

Run a class

Create a class, share the code, let students in, then give them question packages and homework.

YOUR CLASS

PACKAGES AND HOMEWORK

- 1 **Class code**
Give it to students.
- 2 **Share invite**
A link that opens the class.
- 3 **Waiting to join**
Let in, or Decline.
- 4 **Students**
By points; tap one for their numbers and weak topics.
- 5 **Question packages**
Write questions, pick from the bank, or send a file to the bot.
- 6 **New package**
Only this class sees it.
- 7 **Homework**
Set a package with a due date; see who handed in.

TIP Teachers: send the bot a Word, PDF or text file (or forward quizzes) and it turns them into a package. Send /format to see how to write questions.

The rating

Everyone who plays is ranked by points. The top ten are shown by their Telegram name; everyone else sees only their own place.

Rating
Everyone who plays, ranked by points

1 All time or this week
This week starts level for everyone every Monday.

2 Your rank
Your place out of everyone, and your points.

3 Day streak filter
Lists who has the longest streak. It is a filter, not a rank.

4 Top ten
Place, name and points. Gold, silver and bronze for the first three.

5 You
Outside the top ten, your row appears after a gap.

6 How points are counted
Tap to open the rules.

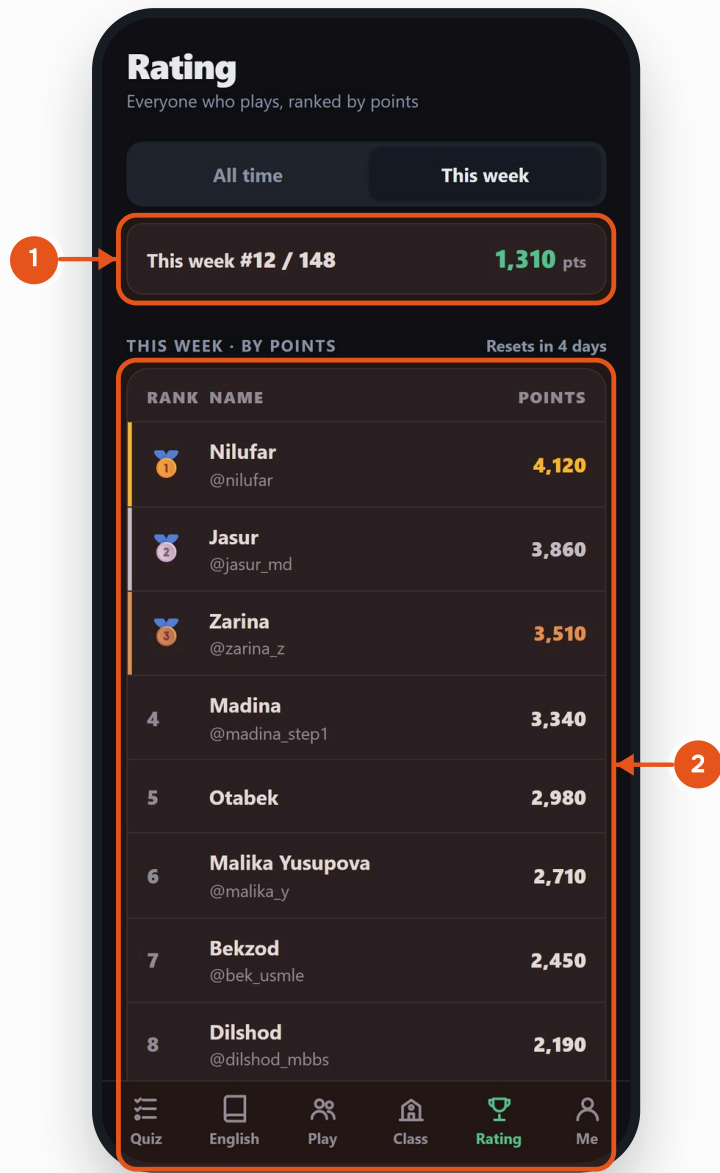

RANK	NAME	POINTS
1	Malika Yusupova @malika_y	31,420
2	Jasur @jasur_md	28,905
3	Nilufar @nilufar	25,130
4	Sardor Aliyev	22,440
5	Madina @madina_step1	20,015
6	Bekzod @bek_usmle	18,760
7	Aziza Karimova @aziza_k	16,200

Rating screen showing a list of players ranked by points. The screen includes filters for 'All time' and 'This week', a 'Your rank' section showing #14 / 312 with 12,840 pts, a 'Day streak filter', and a 'RATING · BY POINTS' table. The table lists the top 10 players with their rank, name, Telegram handle, and points. The bottom navigation bar includes Quiz, English, Play, Class, Rating (selected), and Me.

This week, and how points work

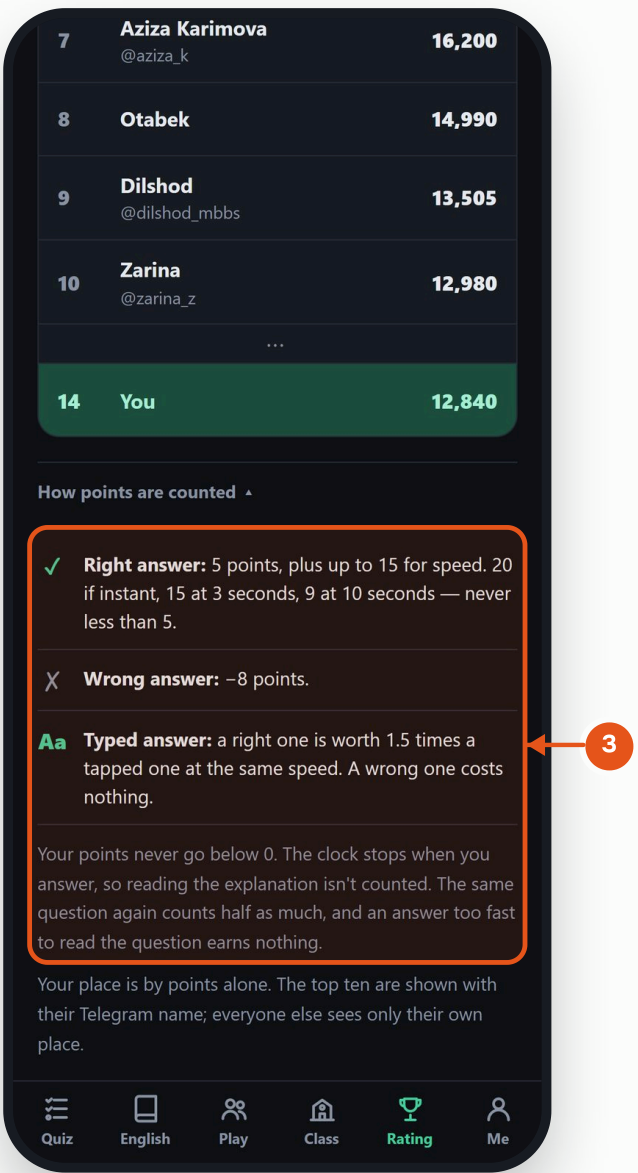

A week is fair to newcomers: it counts only what you earned since Monday. The rules are short.

THIS WEEK

- 1 **Your week**
Your place this week and the points earned since Monday.
- 2 **Weekly top ten**
Resets every Monday, 00:00 UTC.

HOW POINTS ARE COUNTED

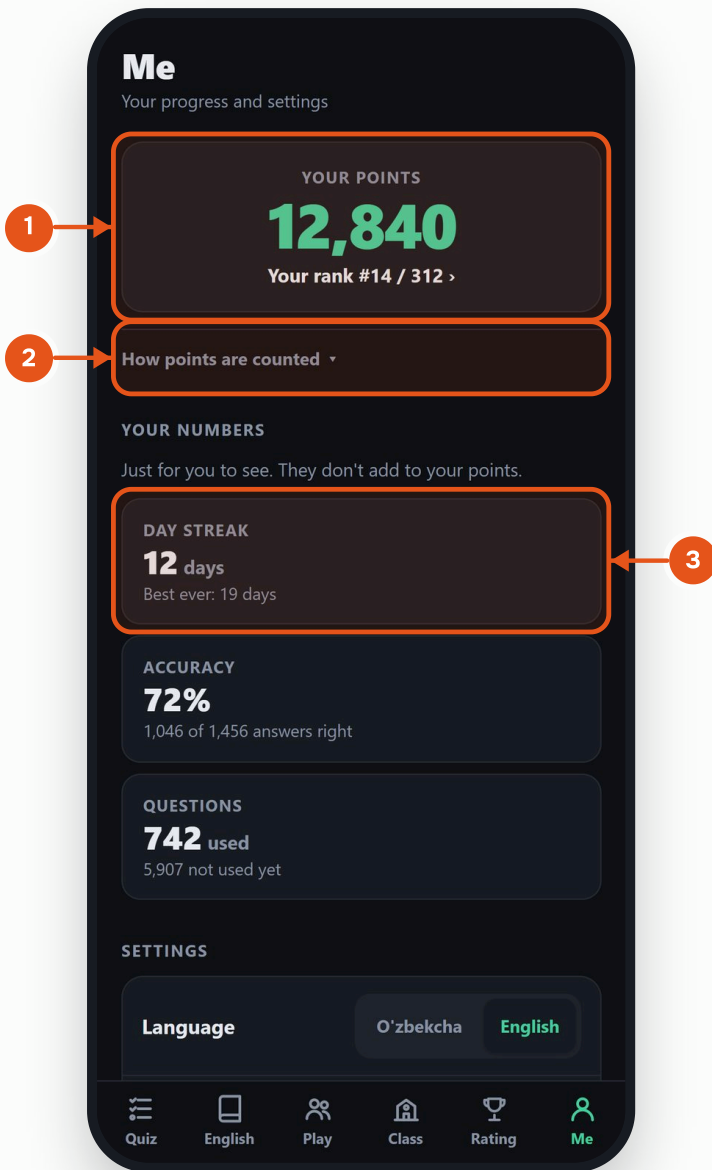

- 3 **Three rules**
Right, wrong and typed. Points never go below 0.

TIP More answers earn more points, so the rating rewards showing up every day.

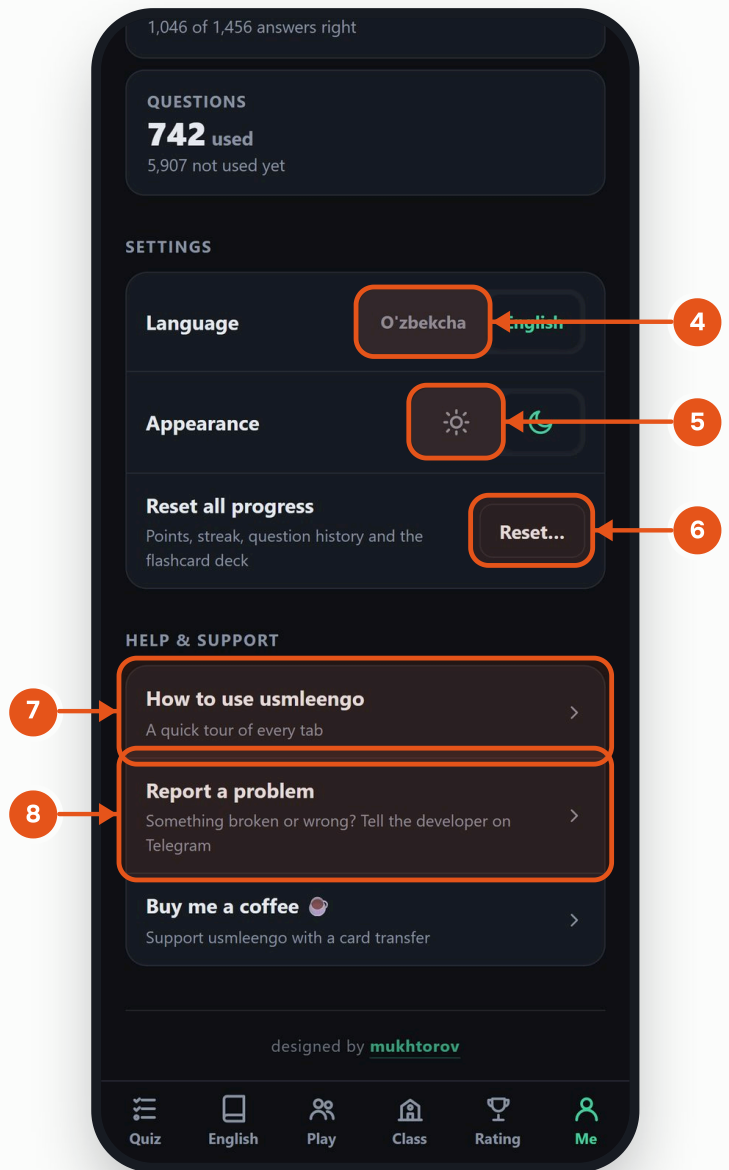

Me: progress and settings

Your points and rank, three numbers just for you, and the settings.

YOUR PROGRESS

SETTINGS AND HELP

- 1 Points and rank**
Tap it to open the rating.
- 2 How points are counted**
The rules, in three lines.
- 3 Just for you**
Day streak, accuracy, questions used. They add no points.

- 4 Language**
English or Uzbek, for the whole app and every question.
- 5 Appearance**
Light or dark.
- 6 Reset**
Clears all progress. Two taps.
- 7 How to use**
A quick tour of every tab.
- 8 Report a problem**
Opens a chat with the developer.

The rules on one page

Rating points

Right, tapped	5 points, plus up to 15 for speed: 20 if instant, 15 at 3 s, 9 at 10 s.
Wrong, tapped	-8 points.
Right, typed	1.5 times a tapped answer at the same speed.
Wrong, typed	0 points: nothing is taken away.
Never below zero	Your points cannot go negative.
The clock	Starts when the question appears, stops when you answer. Reading the explanation is not counted.
The same question again	Each further right answer is worth half as much as the last.

Game points (Play tab)

Right	500 to 1,000 points: the faster, the more.
Wrong or no answer	0 points.
Streak bonus	100 for the 2nd right answer in a row, then 100 more each time, up to 500.
Your rating	Game points never change it.

Day streak

One day counts when you answer at least one question or study a flashcard. Miss a day and it starts again from one. It is shown for interest and adds no points.

Questions people ask

Where is my progress saved?

In your Telegram account, so it is there on any device where you open usmleengo. Two Telegram accounts on one phone keep separate progress.

A question looks wrong or is badly translated.

Tap Something wrong with this question? Tell me under the explanation. It opens a chat with the developer with the question's id already filled in.

How do I start over?

Me → Reset all progress. It needs two taps and clears points, streak, question history and the flashcard deck.

Does it need internet?

Yes: the questions, games, classes and the rating all come over the internet.

I opened the app in a browser. Why no rating?

The rating and classes need Telegram to know who you are. Open the app from @usmleengo_bot.

How do I change the language?

Me → Language. The whole app and every question switch. Test names in the lab table stay in English, as on the exam.

Why did my points go down?

A wrong tapped answer costs 8 points. Wrong typed answers cost nothing.

Something is broken.

Me → Report a problem, or write to the developer in Telegram. Say what you were doing and what you saw.

A little, every day.

A streak starts with a single question.

@usmleengo_bot
